## Software Testing and Quality Assurance

### Fall 2025

### Assignment 2

The goal of the assignment is to identify bugs, report bugs and track bugs using Bugzilla. The assignment is a team work of **TWO** students.

#### Part 1:

- Go to <https://academybugs.com/store/>
- Explore (test) the website and identify three bugs

#### Part 2:

- Go to Bugzilla demo site: <https://bugzilla52.allizgub.org/>
- Create a user account.
- Report the thee bugs that you found in part 1 using three bug reports. Fill all the fields for each bug report.
- Export your reports in PDF format (or screenshots).

#### Part 3:

- Assign one bug report to your team member.
- Work on the report by updating its status (EX: CONFIRMED, RESOLVED, VERIFIED, FIXED) and the comments related to each update.
- Export each status update in PDF format (or screenshots)

#### NOTES:

- Upload the outputs from parts 1 and 2 to your public GitHub repository.
- Send the URL of your public repository to (mhammad@pmu.edu.sa)
